

The screenshot displays the IBM Cognos Analytics interface for a 'Stock Inventory' dashboard. The main visualization is a line chart titled 'Stocks by Year' showing stock prices in USD from November 2014 to November 2017. The chart includes a forecast line for the period from November 2016 to November 2017. The y-axis represents 'Stocks (USD)' ranging from 0 to 8,000, and the x-axis represents 'Year'. The chart shows a significant peak in early 2015 followed by a sharp decline and subsequent fluctuations. A forecast line is shown for the period from November 2016 to November 2017. The interface includes a sidebar with 'Selected sources' (Navigation paths, mock\_kaggle.csv, Revenue, # M\_Data, Year, Sales, Stocks, Price) and a 'Dashboard properties' panel on the right with settings for Canvas, Layout positioning, Page size, Fit page, Width, Height, Grid, and Footer.
